**City of Vicksburg, Mississippi  
Management's Discussion and Analysis (MDA)  
For the Year Ended September 30, 2021**

The following discussion and analysis of the City of Vicksburg's financial performance provides an overview of the City's financial activities for the fiscal year ended September 30, 2021. Readers are encouraged to consider the information presented here in conjunction with the City's financial statements, which immediately follow this discussion and analysis.

**FINANCIAL HIGHLIGHTS**

**Government-wide** - The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the fiscal year by \$122,000,017 (reported as "net position"). This compares to the previous year when assets exceeded liabilities by \$117,636,468. The City's total net position increased by \$4,363,549. Governmental activities' net position increased during the fiscal year by \$3,266,056 and business-type activities' net position increased by \$1,097,493.

**Fund Level** - As of the close of the fiscal year, the City's governmental funds reported combined ending fund balances of \$25,481,993, with \$12,324,246 reported as unreserved fund balance. The portion of the balance that is reserved for a specific purpose totaled 13,157,747. This compares to the prior year ending fund balance of \$22,214,523. The proprietary funds reported total Net Position of \$57,742,986. This compares to the prior year Net Position of \$56,645,490.

**USING THIS ANNUAL FINANCIAL REPORT**

The City of Vicksburg's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information.

**City of Vicksburg, Mississippi**  
**Management's Discussion and Analysis (MDA)**  
**For the Year Ended September 30, 2021**

**Government-Wide Financial Statements**

The government-wide financial statements are designed to provide the reader with a broad overview of the City's finances, in a manner similar to a private-sector business. These statements consist of the Statement of Net Position and the Statement of Activities. Both statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. The current year's revenues and expenses are recognized regardless of when cash is received or paid. See Tables 1 & 2 on pages 7, 8 and 9.

The Statement of Net Position and the Statement of Activities report two types of activities:

***Governmental Activities*** – The governmental activities reflect the City's basic services including general government services (executive, judicial), public safety (fire, law enforcement, emergency medical services), public works (street maintenance), and culture and recreation (parks and recreation and convention center). These services are financed primarily with taxes and intergovernmental revenues.

***Business-type Activities*** – The cost of providing goods or services to the general public, which is financed or recovered primarily through user charges, is reported here. The City Water, Gas, Sewer, Sanitation and Transportation Funds are in this category of activities.

**The Statement of Net Position** – The Statement of Net Position presents information on all of the City's nonfiduciary assets and liabilities, with the differences between the two reported as "net position". Over time, increases or decreases in the City's net position may serve as a useful indicator of whether its financial position is improving or deteriorating.

**The Statement of Activities** – The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (i.e., *Revenues* - uncollected fines and *Expenses* - earned but unused vacation leave).

Government-Wide Financial Statements – Continued

This statement combines the expenses for all departments of the City into a few basic categories, which tells the reader how much a particular service provided by the City costs and shows how that service is paid for. The change in net position of the City may indicate whether the City will be able to continue to provide the same level of services in the future.

This Statement of Activities condenses expense and funding information by combining the expenses of all City departments into a few general categories of service for both the primary governmental activities and the business-type activities. The following explanation is given for those not familiar with reading the Statement of Activities. The Statement of Activities (see page 24) is divided into two sections, Top and Bottom as described below:

**Top Section**

- Column one lists the name of the combined generalized function or program of the City.
- Column two lists the expenses.
- Column three lists revenue from receipt of dollars charged for the service (if any).
- Column four lists (if any) State or Federal grant revenue specific to that program to be used towards its operational expenses.
- Column five lists (if any) State or Federal grant revenue specific to that program to be used towards its capital expenses.
- Column six and seven, respectively for type either governmental or business, lists the dollar amount, either net expense or net revenue, that is derived from the difference between program revenues and its related expenses. The amount listed, shown in parenthesis “( )”, indicates the dollar amount of the expenses that are not covered by fees, charges, grants or contributions and that must be paid from basic taxes.
- Column eight totals the respective row, which totals out the activities of the primary government.

For the Year Ended September 30, 2021**

Government-Wide Financial Statements – Continued

**Bottom Section**

This section contains the following:

- General revenues dollars, under the same two categories of governmental or business-type activities, that are received from taxes, non restricted grants and contributions and unrestricted investment earnings or other miscellaneous revenues, such as gain on sale of asset.
- The change in net position, derived from the difference of the total of activities (top section) less revenues (bottom section).
- Net Position, beginning year balance.
- Net Position, ending.

**Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Information about the City's governmental funds begins on page 25. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The City's funds are divided into three categories: governmental funds, proprietary funds and fiduciary funds. These categories use different accounting approaches and should be interpreted differently.

**Governmental Funds** – Most of the City's general activities are reported in governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements; however, governmental funds are accounted for using the modified accrual basis of accounting and the flow of current financial resources measurement focus. This approach focuses on near-term inflows and outflows of spendable resources, along with the balance of spendable resources available at year-end.

The governmental fund statements provide a detailed view of the City's near-term financing requirements. Governmental funds include the General Fund, City Bond and Interest Debt Service Fund, and Capital Projects Fund, which are presented separately as major funds. All other funds of the City are considered nonmajor funds and are combined into a single column on the governmental fund financial statements.

**For the Year Ended September 30, 2021**

Fund Financial Statements – Continued

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it may be useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may gain a better understanding of the long-term impact of the City's near-term financing decisions.

**Proprietary Funds** – The City maintains two types of proprietary funds: enterprise and internal service.

- *Enterprise funds* charge fees for services to outside customers such as the water, gas, sewer and refuse collection. They are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting and are used to report the same functions presented as business-type activities in the government-wide financial statements.
- *Internal service funds* provide vehicle maintenance services to other City departments on a cost reimbursement basis. Because these services primarily benefit governmental rather than business-type functions, they have been included in governmental activities on the government-wide financial statements

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

**Fiduciary Funds** – Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the city's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The fiduciary fund statement can be found on page 36 of this report.

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are a required part of the basic financial statements and can be found in the basic financial statements section of this report.

**Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information such as a budgetary comparison schedule for the general fund. Required supplementary information can be found on pages 78-81 of this report. The required pension schedules are on pages 82-85 of this report.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

**Statement of Net Position Analysis (Table 1):**

For the year ended September 30, 2021, the City's combined assets (governmental and business-type activities) totaled \$243.1 million dollars compared to \$231.7 million for fiscal year ending September 30, 2020. Cash and cash equivalents increased by \$4.4 million. Total liabilities decreased by \$4.4 million from \$115.4 million to \$119.8 million dollars and capital assets increased by \$3.1 million to \$196.5 million dollars. This comparison is very helpful in reflecting the City's ability to provide uninterrupted services to the public in the future.

The total net position of the City equaled \$122.0 million dollars after deducting total liabilities and outflows of \$127.1 million dollars from total assets.

The largest portion of the City's net position, \$163.7 million dollars, consist of its investment in capital assets such as land, buildings, furniture and equipment, improvements-other and infrastructure, less any debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. The City's investment in capital assets are reported net of related debt, thus it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**Statement of Activities Analysis (Table 2):**

Revenues for fiscal year 2021 totaled \$67.21 million and were \$8.78 million more than expenses, which totaled \$58.43 million. The governmental activities revenues, which totaled \$47.29 million, exceeded expenses of \$39.61 million by \$7.68 million. The business-type activity's revenues, which totaled \$19.91 million, exceeded expenses of \$18.81 million by \$1.10 million. Utility rates have continued to be raised as necessary and a purchase gas adjustment mechanism was in place to adjust the price of natural gas on a monthly basis. The decline in the price of natural gas allowed the City to remove the purchase gas adjustment in March 2009. The water and sewer rates were also increased in October 2019 and October 2021 to cover prior year deficiencies and large capital improvement projects.

The *major* governmental programs of service provided by the City, its cost and percentage of general cost activities are as follows:

	<u><b>2021</b></u>		<u><b>2020</b></u>
• General Government .....	\$ 5.8 million, 14.7%	\$11.06 million,	25.0%
• Public Safety .....	\$16.46 million, 41.6%	\$16.91 million,	38.2%
• Public Works .....	\$ 3.39 million, 8.67%	\$ 3.49 million,	7.86%
• Culture and Recreation.....	\$10.24 million, 25.8%	\$ 5.52 million,	12.5%

The costs of some of the services provided by the City of Vicksburg are paid directly by the recipient of those services. Revenues from charges for services totaled \$19.40 million, which are \$711 thousand above charges for services for fiscal year 2020. Charges for services are primarily in the business-type activities. This group includes the water, gas, sewer utilities, and the sanitation services. Police fines and charges for emergency medical services (ambulance) make up a large portion of the program revenues for the governmental activities. The balance of the costs is paid with taxes collected directly from the taxpayers of the City along with taxes and revenues from other governments. The general revenues of the City consist of the following:

	<u><b>2021</b></u>		<u><b>2020</b></u>
• Property Taxes .....	\$10.61 million, 23%	\$10.08 million,	28%
• Franchise and Misc. Taxes .....	\$7.89 million, 17%	\$ 8.49 million,	24%
• Public Service Taxes Total.....	\$10.17 million, 23%	\$10.17 million,	28%

The final 27% of revenues came from grants and contributions restricted for a specific purpose, the sale of assets, charges for services, interest earnings and other miscellaneous sources, which totaled \$18.10 million for 2021. For 2020, the same items respected 20% of revenues at \$7.30 million.

**THE CITY'S FUNDS ANALYSIS**

**Budgeting Highlights**

During the fiscal year, the City revised the budget on several occasions. In general, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates used to prepare the originally adopted budget once exact information is readily available; 2) amendments made to recognize new funding sources from external entities, such as Federal and State grants; and 3) amendments to increase appropriations that become necessary in order to maintain services.

General Fund revenue for the fiscal year totaled \$31.55 million and exceeded the budgeted amount of \$31.46 million by \$91,383. The final amended General Fund expense budget totaled \$34.0 million dollars. The total amount expended was \$32.9 million dollars, which is \$.1 million short of the budgeted amount.

The City's Bond and Interest Fund budget variances were minor.

The City's Capital Projects Fund budgets the total amount of ongoing bond projects, both the General Infrastructure bond and the Path projects were in the funds.

**Capital Assets and General Long-Term Obligations**

**Capital Assets**

General capital assets include land, improvements to land, buildings, vehicles, machinery and equipment, infrastructure, and all other tangible assets that are used in operations and that have initial useful lives greater than one year and exceed the capitalization threshold. The City has capitalized all purchased general capital assets.

The most significant changes in reporting standards for capital assets under Governmental Accounting Standards Board, Statement No. 34 (GASB34) is in the recording of infrastructure such as roads, bridges, sidewalks and other non-building improvements such as ball-fields, playgrounds, etc.

The City completed the process of complying with GASB34 in the 2003 fiscal year. Separate fixed asset inventory records are maintained for each item of capital asset.

**Management’s Discussion and Analysis (MDA)**  
**For the Year Ended September 30, 2021**

Capital Assets – Continued

Fiscal year 2021 is the seventeenth year that the City has complied with the GASB34 requirements concerning the statement and depreciation of its capital assets. The City continues to improve the accuracy of its data concerning its capital assets. The Mississippi, Office of State Auditor promulgates the rules for accounting for municipal fixed assets.

Easements and donated or dedicated right of way (those placed into the government’s maintenance through contributions from private development) are not capitalized in this financial presentation. The City has an ongoing project to research and record all easements.

For the year ended September 30, 2021, governmental activities capital assets totaled **\$264,388,390** with accumulated depreciation of **\$131,253,290** leaving a net capital assets balance of **\$133,135,100**. Business-type activities capital assets for year ended September 30, 2021 totaled **\$114,252,513** with total accumulated depreciation of **\$50,931,816** leaving a net business-type capital assets balance of **\$63,320,697**.

See Note 6 of the “Notes to Financial Statements”, for a breakdown of the individual categories with its beginning balance, additions, retirements, and ending balance.

**General Long Term Obligations**

A General Obligation (GO) bond is a bond backed by the full faith and credit of the City; and although not required, usually means that a tax levy will be assessed to repay the debt.

Most GO bonds issued by the City are repaid within fifteen years. This timely repayment helps to hold down interest cost on debt and enhances the City's credit rating. The quick repayment also gives the City great flexibility in financing the future needs of the City.

**Limits on Debt**

The City of Vicksburg is subject to a general statutory debt limitation under which the City may not incur general obligation bonded indebtedness in an amount, which shall exceed fifteen percent (15%) of the assessed value of the City's taxable property. *(Bonds issued for utility system improvements if revenues of the system are exclusively dedicated for repayment, are not subject to the fifteen percent (15%) limit.)*

The City's current fifteen percent (15%) limit is \$46,510,334. At fiscal year ended, September 30, 2021, outstanding balances for bonds issued by the City, subject to the fifteen percent (15%) debt limit, totaled \$15,760,000. The City of Vicksburg would have the ability to issue additional bonds for \$30,750,334.

State law imposes an overall debt limit on municipalities of twenty percent (20%) of the assessed value of the taxable property within the City. At September 30, 2021, the twenty percent (20%) limit for the City of Vicksburg was \$62,013,778. The City's total outstanding debt, subject to this overall debt limit, totaled \$15,760,000. The City of Vicksburg has the ability to issue an additional amount of \$46,253,778. This figure represents seventy-four percent (74%) of the City's total debt capacity.

See Note 7 of the "Notes to Financial Statements", for more detailed information about our long-term liabilities.

**CONTACT INFORMATION**

Financial reports of the City of Vicksburg are for use by residents as well as groups and entities, such as investors and creditors, to assess the financial condition of the City.

The citizens of Vicksburg should be able to use the reports to tell them how their taxes and fees for services have been used and to determine if their taxes or fees for services will increase. The citizens should also be able to assess the City's ability to continue the services which the citizens desire and if the City is making proper financial decisions to ensure that the infrastructure of the City is being maintained.

Investors and creditors have a need for proper financial reports to evaluate the financial condition of the City. Investors need assurances of a sound financial condition when making decisions to provide the financing needs of the City or to invest directly in the City. Citizens benefit by the City having the most favorable credit rating.

For more information regarding this report and the City of Vicksburg's financial condition, contact the City Clerk's office located at 1401 Walnut Street, Vicksburg, MS. Phone: 601-634-4553 or E-mail: [Waltero@vicksburg.org](mailto:Waltero@vicksburg.org). You may also visit the City's website at [www.vicksburg.org](http://www.vicksburg.org).

## INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Board of Aldermen  
City of Vicksburg, Mississippi

### Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Vicksburg, Mississippi, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City of Vicksburg, Mississippi's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinions.

### **Opinions**

In my opinion, the financial statements referred to present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Vicksburg, Mississippi, as of September 30, 2021 and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Emphasis of Matter**

None

### **Other Matters**

#### **Required Supplementary Information**

Accounting principles general accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, Schedule of the City's Proportionate Share of the Net Pension Liability and of the City's Contributions on pages 1-17, 77-81 and 82-85 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for the placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basis financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

#### **Other Supplementary Information and Other Information**

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The other supplementary information such as combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and the other information, such as introductory section, budgetary schedules, the other schedule, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary schedules and the other schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statement as a whole.

The introductory and statistical sections and the schedule of surety bonds of the City's officials have not been subjected to the audit of the basic financial statements and, accordingly, I do not express an opinion or provide any assurance on them.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, I have also issued my report dated December 16, 2022 on my consideration of the City of Vicksburg, Mississippi's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Vicksburg, Mississippi's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Vicksburg, Mississippi's internal control over financial reporting and compliance.

Net Change in Fund Balances - Total Governmental Funds	\$	3,267,471
--	----	-----------

Amounts reported for Governmental Activities in Statement of Activities are different because:

Governmental Funds report Capital Outlays as Expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their useful lives and reported as Depreciation Expense. This is the amount by which Capital Outlays exceeded Depreciation.		5,108,636
--	--	-----------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as Expenditures in the Governmental Funds.		299,041

**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. General Statement**

The City of Vicksburg was incorporated in 1825. The City amended its charter in accordance with Section 21-17-9 M.C.A, which was approved on June 19, 2017 by the State of Mississippi's Governor and Attorney General and adopted by the Mayor and Aldermen of the City of Vicksburg on February 10, 2017. The City charter was amended with following charter provisions such as 1) inspection of City's book; 2) requires corporate officers to be qualified electors of City's officers; 3) to amend the provisions regarding the jurisdiction of the municipal court to comply with state laws; 4) to amend the provisions regarding the municipal court clerk; 5) to mend the provision regarding the City's sexton; 6) to amend the provisions regarding the City's jail and City's prisoners; 7) to amend the provision regarding the building and repairing of sidewalks; 8) to amend the provision regarding the speed of horses; 9) to repeal the provision authorizing the appropriation of funds to a public hospital; and 10) to repeal the establishment, jurisdiction and regulations regarding the Vicksburg Harbor and Port Commission, and for related matters.

The City operates under a Mayor-Aldermen form of government. As authorized by its charter, the City provides various services: public safety (police and fire), highway and streets, sanitation, health and social services, culture, recreation, public improvements, planning and zoning, and general administrative services. In addition, the City owns and operates a water and sewer system.

The City complies with accounting principles accepted in the United States of America ("GAAP"). The Government Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The accounting framework and the more significant accounting policies of the City are described in the subsequent sections of this note.

**B. Financial Reporting Entity**

The City's combined financial statements include the accounts of all City operations. In determining the financial reporting entity, the City complies with the provisions of GASB Statement No. 14, "The Financial Reporting Entity," and GASB Statement No. 39 Determining Whether Certain Organizations Are Component Units. The criteria for including organizations as component units within the City's reporting entity included whether:

- the organization is legally separate (can sue and be sued in their own name)
- the City holds the corporate powers of the organization

**City of Vicksburg, Mississippi**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

B. Financial Reporting Entity - Continued

- the City appoints a voting majority of the organization's board
- the City is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the City
- there is fiscal dependency by the organization on the City

Based on the aforementioned criteria, the City of Vicksburg has no component units.

C. **Basis of Presentation**

The government-wide financial statements include a Statement of Net Position and the Statement of activities. These statements distinguish between governmental and business-type activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

**Government-Wide Financial Statements**

The Statements of Activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identified with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues. Indirect expenses are allocated to general government.

**Fund Financial Statements**

The City segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for governmental and proprietary activities. These statements present each major fund as a separate column on fund financial statements.

**Governmental Funds**

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

C. Basis of Presentation – Continued

The City reports the following major governmental funds:

**General Fund** – This fund is the main operating fund of the City. This fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other funds are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund.

**City Bond and Interest Fund** – This fund is used to accounts for the accumulation of financial resources for the payment of principal and interest on the City’s general obligation debt. The City annually levies ad valorem taxes restricted for the retirement of general obligation bonds and interest.

**Capital Projects Fund** – This fund is used to accounts for financial resources to be used for the acquisition or construction of major capital facilities.

**Special Revenue Fund** – This fund is used to accounts for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

***Proprietary Funds***

The City reports the following major proprietary funds using the economic measurement focus and accrual basis of accounting. The accounting objectives are determinations of net income, financial position, and cash flow. All assets, deferred outflows of resources, liabilities and maintenance of the water and sewer system, as well as the billing and collection activities. All costs are financed through charges to utility customers with rates reviewed by the Board of Aldermen.

**Water Fund** – accounts for the operations of the water distribution system of the City.

**Gas Fund** – accounts for the operating activities of the City’s gas utilities services.

**Sewer Fund** – accounts for the operating activities of the City’s sewer utilities services.

C. Basis of Presentation – Continued

**Other Fund Types**

The City also reports the following fund types:

**Internal Service Funds** – accounts for the financing of goods or services provided by one department to other departments within the City on a cost-reimbursement basis. These include garage services. The City’s internal service fund is presented in the proprietary funds financial statements. Because the principal users of the internal services are the City’s governmental activities, the financial statements of the internal service fund are consolidated into the governmental activities column when presented in the government-wide financial statements. To the extent possible, the cost of these services is reported in the appropriate functional activity (police, fire, public works, etc.).

**Agency Fund** – accounts for fiduciary assets held by the City in a custodial capacity as an agent on behalf of others. Since agency funds are custodial in nature (i.e. assets equal liabilities), they do not involve the measurement of results of operations.

**D. Measurement Focus and Basis of Accounting**

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide and fund financial statements for proprietary funds are reported using the economic resource measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current), deferred outflows of resources and deferred inflows of resources are included on the Statement of Net Position and the operating statements present increases (revenues) and decreases (expenses) in the net total position. Under the accrual basis of accounting, revenues are recognized when earned, including unbilled water and sewer services which are accrued. Expenses are recognized when earned and expenses are recognized when incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting, pursuant to GASB Statement No. 33. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available.

**City of Vicksburg, Mississippi**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

D. Measurement Focus and Basis of Accounting-Continued

“Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year-end. A two-month availability period is used for recognition of all other Government Fund revenues. Expenditures are recognized when the related fund liability is incurred. However, debt service expenditures, except for interest payable accrued at the debt issuance date for which cash is received with the debt proceeds, as well as expenditures related to compensated absences are recorded only when payment has matured and will be payable shortly after year-end.

General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The revenues susceptible to accrual are property taxes, franchise fees, licenses, charges for services, interest income and intergovernmental revenues. Sales taxes collected and held by the state at year-end on behalf of the government are also recognized as revenue. All other governmental fund revenues are recognized when received, as they are generally not measurable or available until actually received.

When both restricted and unrestricted resources are available for use, it is the City’s policy to use restricted resources first, then unrestricted resources as needed.

The City’s proprietary funds distinguish between operating and non-operating revenues and expenses. Operating revenues and expenses of the City’s utility type funds consist of charges for services and the costs of providing those services, including depreciation and excluding interest cost. All other revenues and expenses are reported as non-operating.

**E. Equity Classification**

Net position in government-wide and proprietary fund financial statements are classified in three components:

NET INVESTMENT IN CAPITAL ASSETS

Net investment in capital assets consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowing attributable to the acquisition, construction or improvement of those assets.

**City of Vicksburg, Mississippi**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

**E. Equity Classification – Continued**

RESTRICTED

Restricted net position of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws and regulations of the governments; or law through constitutional provisions or enabling legislation.

UNRESTRICTED

Unrestricted net position is all other net position not meeting the definition of “restricted” or “net investment in capital assets.”

In February 2009, the GASB issued Statement No. 54, Fund Balance Reporting and Government Fund Type Definitions (“GASB Statement No. 54”), which became effective in fiscal 2011. Under GASB Statement No. 54, fund balance in governmental fund financial statements is classified as: non-spendable, restricted, committed, assigned, and unassigned.

The governmental fund type classified fund balances as follows:

- **Nonspendable.** This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.
- **Restricted.** This classification includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation, or because of constraints that are externally imposed by creditors, grantors, contributors or the laws or regulations of other governments.
- **Committed.** This classification includes amounts that can be spent only for specific purposes pursuant to constraints imposed by formal action of the City. Such formal action may be in the form of an ordinance or resolutions and may only be modified or rescinded by a subsequent formal action.
- **Assigned.** This classification includes amounts that are intended by the City to be used for specific purposes but are neither restricted nor committed. Assignments may be made only by the governing body or official.
- **Unassigned.** This classification represents the residual positive balance within the General Fund, which has not been restricted, committed or assigned. In funds other than the General Fund, unassigned fund balances are limited to negative residual balances. The City uses restricted amounts first when both restricted and unrestricted fund balances are available.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

**F. Cash and Cash Equivalents**

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes permit the City to invest funds in excess of sums required for immediate expenditure or current obligation in certificates of deposit and other time deposits with financial institutions approved for the deposit of State funds, debt instruments of the U.S. government and its agencies of the State of Mississippi, or of any county or municipality when such county or municipal bonds have been property approved.

The City pools its cash resources of its various funds in order to maximize investment opportunities. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements and is considered to be cash equivalents. Investment income is allocated based on each fund's average daily balance in the pooled cash account.

**G. Interfund Balances and Activity**

Transactions between funds that are representative of short-term lending/borrowing arrangements and transactions that have not resulted in the actual transfer of cash at the end of fiscal year are referred to as "Due to/from other funds." Noncurrent portions of interfund receivables and payable are reported as "Advances to/from other funds." Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance account, if applicable, to indicate that they are available for appropriation and are not expendable available financial resources. Interfund receivables and payable between funds within governmental activities are eliminated in the Statements of Net Position. Any outstanding balances between the governmental activities and business-type activities are reported in the government-wide financial statements as "Internal balances."

**H. Prepaid Items**

Prepaid items are for payments made by the City in the current year to provide services in the subsequent fiscal year. Prepaid items are recorded using the consumption method.

**City of Vicksburg, Mississippi**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

**I. Inventories**

Inventories in governmental funds consist of expendable supplies held for consumption stated on a first-in, first-out basis. They are reported at cost, which is recorded as expenditure at the time individual inventory items are used. Proprietary fund inventories are recorded at the lower of cost or market on a first-in, first-out basis.

**J. Capital Assets and Depreciation**

Capital assets, which include land, construction in progress, infrastructure, buildings and improvements, leased equipment and equipment and vehicles, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are capitalized at acquisition value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows.

<u>Description</u>	<u>Estimated Lived</u>
Land	-0- years
Building	40 years
Improvements other than buildings	20 years
Roads	20 years
Bridges – concrete	50 years
Bridges – timber	30 years
Computer Equipment	3 years
Furniture and Fixtures	7 years
Vehicles	5 years
Equipment	10 years
Leased property under Capital Leases	*

\*Leased property capitalization policy and estimated useful life will correspond with the amounts for the applicable asset classification, as listed above.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

**J. Capital Assets and Depreciation - Continued**

The City maintains a threshold level of \$5,000 or more for capitalizing capital assets, unless State guidelines require a lower threshold. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective account, and the resulting gain or loss is recorded in operations. In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

The cost of normal maintenance and repair that does not add to the value of capital assets or materially extend their respective lives is not capitalized. Interest expenditures are not capitalized on capital assets.

**K. Compensated Absences**

Full-time, permanent employees are granted vacation benefits in varying accounts to specified maximums depending on tenure with the City. The City does not provide for the payment of accumulated sick leave. Compensated absences are reported as accrued in the government-wide and proprietary financial statements. Governmental funds reports only matured compensated absences payable to currently terminating employees and are included in wages and benefits payable.

**L. Long-term Obligations**

In the government-wide the proprietary and financial statements, outstanding debts are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of Net Position.

Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payables are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Principal and interest payments are treated as period costs when paid.

**M. Post Employment Health Care and Life Insurance Benefits**

The City does not incur costs associated with post-employment benefits for retired employees. The City allows all vested employees to continue in the group plan after retirement; however, the retired employees pay 100% of the premiums.

**N. Net Position**

The government-wide statement of Net Position reports a total of \$ -0- of restricted assets for governmental activities, of which the same amount is restricted by enabling legislation.

**O. Extraordinary and Special Items**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events within the control of the City, which are either unusual in nature or infrequent in occurrence.

**P. Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the financial statements date and the reported amounts of revenues, expenses or expenditures during the reporting period. Actual results could differ from those estimates.

**Q. Budgets and Budgetary Accounting**

The City Charter establishes the fiscal year as the twelve-month period beginning October 1. The City's Accountant submits to the Mayor and Aldermen a proposed operating budget for the fiscal year commencing October 1. The operating budget includes expenditures and the means of financing them. A public hearing is conducted to obtain taxpayer comments. Prior to October 1, the budget is legally enacted by adoption of a resolution that is recorded in the minutes of the city Board. Revisions that alter the expenditures of any fund must be approved by the City Board. The budgets presented in this report are amended. Formal budgetary integration is employed as a management control device during the year for all funds. Budgets for all funds are adopted as a basis consistent with generally accepted accounting principles (GAAP). All budgetary appropriations lapse at the end of each fiscal year.

**September 30, 2021**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

**R. Deferred Outflows /Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditures) until that time.

Deferred outflows related to pensions – This amount represents the City's proportionate share of the deferred outflows of resources reported by the pension plan in which the City participates. See Notes for additional details.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

Deferred inflows related to pensions – The amount represents the City's proportionate share of the deferred inflows of resources reported by the pension plan in which the City participates. See Notes for additional details.

**S. Pensions**

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Mississippi (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (included refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

**T. Property Tax Revenue**

Restrictions associated with property tax levies vary with the statutory authority. The amount of increase in certain property taxes is limited by state law. Generally, this restriction provides that these tax levies shall produce no more than 110% of the amount which resulted from the assessments of the previous year.

The Board of Aldermen, each year at a meeting in September, levies property taxes for the ensuing fiscal year which begins on October 1. Real property taxes become a lien on January 1 of the current year, and personal property taxes become a lien on March 1 of the current year. Taxes on both real and personal property, however, are due on or before February 1 of the next succeeding year. Taxes on motor vehicles and mobile homes that become a lien are due in the month that coincides with the month of the original purchase.

Accounting principles generally accepted in the United States of America require property taxes to be recognized at the levy date if measurable and available. All property taxes are recognized as revenue in the year for which they are levied. Motor vehicle and mobile home taxes do not meet the measurability and collectability criteria for property tax recognition because the lien and due date cannot be established until the date of the original purchase occurs.

**U. Intergovernmental Revenue in Government Funds**

Intergovernmental revenues, consisting of grants, entitlements and shared revenues, are usually recorded in Governmental Funds when measurable and available. However, the “available” criterion applies for certain federal grants and shared revenues when the expenditure is made because expenditure is the prime factor for determining eligibility. Similarly, if cost sharing or matching requirements exist, revenue recognition depends on compliance with these requirements.

**V. Allocation of Indirect Expenses**

The City allocates indirect expenses primarily comprised of central government services to operating functions and programs benefiting from those services. Central services include overall City management, accounting, financial reporting, payroll, procurement contracting and oversight, personnel services, and other central administrative services. Allocations are charged to programs based on use of central services determined by various allocation methodologies. As a matter of policy, certain functions that use significant central services are not charged for the use of these services. These functions or programs include police, fire, and certain divisions within public services and parks.

**NOTE 2. CASH AND CASH EQUIVALENTS**

The collateral for public entities' deposits in financial institutions are now held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5- Miss. Code Ann. (1972). Under this program, the City's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against these deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation. At September 30, 2021, all of the City's bank deposits were covered under the collateral pool administered by the State Treasurer, with the exception of the amounts held in the Perpetual Care trust accounts at an in-state bank.

At September 30, 2021, the carrying amount (recorded on the City's books) of the City's demand deposits was \$20,736,602 and the bank balance was \$20,578,456. The City also has \$3,837,759 (carrying value) of investments held in trust and insured at two local trust departments for the perpetual care non-expendable trust. Of the bank balances, \$750,000.00 was insured by the FDIC and the \$ 19,828,456 was covered by pooled and/or pledged collateral. As of September 30, 2021, the carrying amount of the City's restricted cash was \$ 10,770,614.

**NOTE 3. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS**

Fair market value is based on quoted market prices. This amount consists of the following:

<u>Government Obligations</u>	<u>Cost</u>	<u>FMV</u>
Treasury and Federal Agencies	\$0	\$0
Equity Mutual Funds	771,519	1,070,707
Fixed Income Mutual Funds	2,571,173	2,632,476
Cash and Equivalents	134,191	134,541
	<u>\$3,476,883</u>	<u>\$3,837,724</u>

Interest Risk: The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Investments are classified by credit risk by Level 1, which is insured, or registered securities held by the bank's trust department. Current rating of the mutual funds as of September 30, 2021 ranges from A to AAA to BBB. As of SEPTEMBER 30, 2021, the maturities of investments subject to interest risk are as follows:

Investment maturities at fair value (in years):

Investment Type	Less than 1	1-5	6-10	More than 10
Corporate Bonds	\$2,506,889	\$ 125,587		
Equities	\$1,205,248	-	-	-
U. S. Government Agencies	\$ -		-	-

Custodial Credit Risk: All investments are not exposed to custodial credit risk as they are entirely insured and registered but in custodial accounts at two local banks in the name of the City.

Credit Risk: The City has no investment policy that would further restrict its investment choices other than those set by State of Mississippi statute. Following is a list of investments which are stated in state statute and are limited to the investment of funds in excess of sums required by immediate expenditure or current obligations:

Certificates of deposit with municipal depositories approved annually by the State Treasured Bonds of direct obligations of the:

- United States of America
- State of Mississippi
- County or Municipality of Mississippi
- School Districts

State statute allows the investment of funds received from the sale of bond, notes or certificates of indebtedness which are not immediately required for disbursement for the purpose issued, to be placed in direct obligations issued by or guaranteed in full by the United States of America, or in certificates of deposit with approved municipal depositories.

Moody’s Investors Service has previously assigned the City of Vicksburg, MS an A2 bond rating on August 27, 2018. However, as of November 18, 2022, the Services has withdrawn its rating of the City of Vicksburg, MS due to lack of audited financial information to support the maintenance of the rate as to rating outlooks and rating reviews. As of the date of the financial statements, the required information is forward to Moody’s.

**NOTE 4. RECEIVABLES, UNCOLLECTIBLE ACCOUNTS AND DEFERRED REVENUE**

*Property Taxes Receivable, Deferred Revenue and Property Tax Calendar*

Property taxes are levied in September on the assessed (appraised) value of all real and business personal property located in the city and are payable by the following February 1. An enforceable lien on property is attached as of January 1. However, taxpayers are permitted pay ad valorem taxes in installments by paying one-half by February 1, one-quarter by May 1, and one-quarter by July 1. Installments bear interest at the rate of 12% per annum. City property tax revenues are recognized when levied. Major tax payments are received in February through May. An allowance is established for delinquent taxes to the extent that their collectability is doubtful. The City has an interlocal agreement with the county to collect all City and school taxes.

For the current year, the City levied taxes in the amount of 35.88 mills for the following purposes:

General	22.79
City Debt Service	7.95
Police and Fire Disability Relief Fund	<u>5.14</u>
Total Mills	<u><u>35.88</u></u>

An additional millage rate of 5.05 was levied for the business promotion area.

NOTE 4. RECEIVABLES, UNCOLLECTIBLE ACCOUNTS AND DEFERRED REVENUE—CONT'D

*General Accounts Receivables and Uncollectible Accounts*

Significant receivables include amounts for fines and forfeitures from the court system and charges for ambulance transportation. The court system receivables are due when the City has an enforceable legal claim against the organization or individual. Revenues and receivables for court fines and forfeitures are reported net of any amounts the City, based on historical trends, estimated will be uncollectible based on noncompliance with partial payment agreements. The other significant receivable is for charges incurred due to utilization of ambulance services. These receivables are due at the time of service. Revenues and receivables are reported net of contractual allowances due to agreements between the City and various insurance companies and an allowance for uncollectible amounts based on historical trends for non-payments related primarily to self-pay accounts.

*Enterprise Receivables and Uncollectible Accounts*

Significant receivables include amounts due from customers primarily for utility services. These receivables are due prior to the next billing cycle, which is every month. Certain enterprise funds report accounts receivable net of an allowance for uncollectible accounts and revenues net of uncollectible. The allowance amount is estimated using accounts receivable past due more than 60 to 90 days, depending upon the fund.

*Receivables from Other Governments and Deferred Revenue*

Other government receivables are primarily comprised of amounts due from federal and state governments for miscellaneous taxes and grants. Revenue is recorded as earned when eligibility requirements are met for grants. Grant revenues deferred in the governmental fund financial statements include unearned revenue and revenue received more than 60 days following year-end (unavailable to pay liabilities of the current period). Deferred revenue received after 60 days is fully recognized as revenue in the government-wide statements if grantor eligibility requirements are met.

**NOTE 8. LONG-TERM OBLIGATION**

**Bonds and Note Payable**

General Obligation Bonds

General Obligation Bonds are direct obligations issued on a pledge of the general taxing power for the payment of the debt obligations of the City. General Obligation Bonds require the City to compute, at the time other taxes are levied, the rate of tax required to provide (in each year bonds are outstanding) a fund to pay interest and principal at maturity. The City is in compliance with this requirement.

**Other**

State Revolving Fund Loan (SRFL)

SRFLs are also special obligations of the City solely secured by a special pledge of the City's sales tax revenues.

Tax Increment Financial (TIF) Bonds

TIF Bonds are commonly issued to encourage economic development in a defined area. Resources for payment of interest and principal on the bonds result from the tax increases in the defined area. These bonds usually carry a higher interest rate due to the risk of economic downturn or limited tax revenue growth in the defined TIF area.

Restricted Assets

Certain proceeds of the city's Proprietary Fund bonds, as well as certain resources set aside for their payment, are classified as restricted assets on the balance sheet because their use is limited by applicable covenants.

The following is a summary of the city's long-term debt transactions for the year ended September 30, 2021:

NOTE 8. LONG-TERM OBLIGATION– CONTINUED

**Claims and Judgments**

The City established a limited risk management program for health insurance in prior years. Premiums are paid into the general fund by all other funds and are available to pay claims, claim reserves, and administrative costs of the program. These inter-fund premiums are used to reduce the amount of claim expenditures reported in the General Fund. As of September 30, 2021, such inter-fund premiums did not exceed reimbursable expenditures.

Liabilities are reported when it is probable that a loss has occurred, and the amount of the loss can be reasonably estimated. The City has excess stop loss agreements that cover losses in excess of specific and aggregate retention levels. Liabilities include an amount for claims that have been incurred but not reported (IBNRs) which were determined based on subsequent year settlement of claims incurred during year under audit by the insurance carrier. Changes in the balances of claims liabilities during the past year are as follows:

	<b>Government Activities</b>	<b>Business-Type Activities</b>
<b>2021</b>		
Balance, Beginning of the Year	\$ 227,231	\$ 42,139
Claims Incurred	4,595,215	1,007,759
Claims Payments	4,661,483	989,240
Balance, End of the Year	\$ 160,963	\$ 60,658
	<b>Government Activities</b>	<b>Business-Type Activities</b>
<b>2020</b>		
Balance, Beginning of the Year	\$ 227,123	\$ 46,087
Claims Incurred	3,326,250	756,977
Claims Payments	3,326,250	760,925
Balance, End of the Year	\$ 227,123	\$ 42,139

The claims and judgment liability related to IBNR will generally be liquidated by charging the individual funds based on management’s assessment of the relative risk that should be consumed by individual funds. Currently, the General Fund bears approximately 100% of the claims costs and the percentage approximates the percentage in prior years.

**Public Employees' Retirement System of Mississippi (PERS)**

**Defined Benefit Pension Plan**

*Pensions.* For purposes of measuring the liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Mississippi (PERS) and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of PERS. Investments are reported at fair value. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1- et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. The PERS plan financial report is included in the Comprehensive Annual Financial Report of the Public Employees' System available at [www.PERS.ms.gov](http://www.PERS.ms.gov). The Public Employees' Retirement System of Mississippi (PERS or the System) was created with the purpose to provide pension benefits for all state and public education employees, sworn officers, sworn officers of the Mississippi Highway Safety Patrol, other public employees whose employers have elected to participate in the System, and elected members of the State Legislature and the President of the Senate. The System administers a cost-sharing, multiple-employer defined benefit pension plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, Financial Reporting for Pension Plans.

**General Information about the Pension Plan**

*Plan description.* PERS is a defined benefit cost-sharing plan administered by the PERS System that provides retirement benefits to all eligible employees. Membership in PERS is a condition of employment granted upon hiring for qualifying employees including officials of the State of Mississippi (the State), state universities, community and junior colleges, and teachers and employees of the public school districts, and other public employees whose employers have elected to participate. For those persons employed by political subdivisions and instrumentalities of the State, membership is contingent upon approval of the entity's participation in PERS by the System's Board of Trustees. Members and employers are statutorily required to contribute certain percentages of salaries and wages as specified by the Board of Trustees. Current rates are 17.40 percent for employers and 9.00 percent for members. PERS employers contributed \$1,169.7 million and members contributed \$594.9 million for fiscal year 2021. PERS employers contributed \$1,171.8 million and members contributed \$594.7 million for fiscal year 2020.

*Benefits provided.* A member who terminates employment from all covered employers and who is not eligible to receive monthly retirement benefits may request a full refund of his or her accumulated member contributions plus interest.

General Information about the Pension Plan - Continued

Upon withdrawal of contributions, a member forfeits service credit represented by those contributions. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less.

Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary.

A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter.

Contributions. Per Chapter 11 of Title 25, Miss Code Ann. (1972, as amended), the Board of Trustees of the Public Employees' Retirement System of Mississippi is authorized to set the contribution rates for both employee and employer contributions based on the basis of the liabilities of the retirement system as shown by the actuarial valuation. Effective July 1, 2010 and continuing thereafter until amended by the Board of Trustees of the Public Employees' Retirement System of Mississippi, the employee contribution rate was fixed at 9.00 percent of earned compensation. The City's contractually required contribution rate amended by the Board of Trustees of the Public Employees' Retirement System of Mississippi, is fixed at 17.40 percent of earned compensation. Contributions to the pension plan from the City for the years ended September 30, 2021, 2020 and 2019 were \$ 2,740,274, \$2,725,357 and \$2,592,368, respectively. The contributions for each year met the required contributions.

GASB Statement No.68, Accounting and Financial Reporting for Pensions, requires participating employers to recognize their proportionate share of the collective net pension liability, deferred outflows of Resources, deferred inflows of resources, and pension liability.

**PENSION LIABILITIES (ASSETS), PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS**

*Pension Liability.* At September 30, 2021, the City reported a liability of \$35,008,795 for its proportionate share of net pension liability. The net pension liability was measured as of September 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2020. The City's proportion of the net pension liability was based on the city's actual contributions to the pension plan during the year ended September 30, 2021 relative to the total actual contributions of all participating employers for the year ended September 30, 2021. At the September 30, 2021 measurement date, the City's proportion was 0.236859 percent. The proportion measured as of September 30, 2020 was 0.244804 percent.

*Pension Expense.* For the year ended September 30, 2021, the City recognized a pension expense of \$1,753,577.

*Deferred Outflows of Resources and Deferred Inflows of Resources.* For the year ended September 30, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 559,790	\$ -
Changes in assumptions	2,693,909	0
Net difference between projected and actual earnings on pension plan investments	0	10,543,155
Entity contributions subsequent to the measurement date	<u>2,740,274</u>	<u>-</u>
Total	<u>\$ 5,993,973</u>	<u>\$ 10,543,155</u>

**City of Vicksburg, Mississippi**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

Deferred outflows of resources related to pensions resulting from the City's contributions, subsequent to the measurement date, will be recognized as a reduction of net pension liability in the following fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending September 30,	
2022	\$ (1,258,235)
2023	(1,241,207)
2024	(1,648,212)
2025	(3,141,802)

Actuarial assumptions utilized in developing the TPL are outlined in Schedule A. The TPL as of June 30, 2021 was determined by an actuarial valuation prepared as of June 30, 2020. The following actuarial assumptions applied to all periods included in the measurement:

Inflation	2.40 Percent
Salary Increases	2.65-17.90 Percent, including Inflation
Investment Rate of Return	7.55 Percent, Net of Pension Plan Investment Expenses, including Inflation

Mortality rates were based on the PubS.H-2010(B) Retiree Table with the following adjustments: For males, 95% of male rates up to ages 60, 110% for ages above 77. For females, 84% of female rates up to age 72 and 100% for ages above 76. Mortality rates will be projected generationally using the MP-2020 projection scale to account for future improvements in life expectancy.

The actuarial assumptions are based on the experience investigation for the four-year period ending June 30, 2020.

The long-term expected rate of return on pension plan investments was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

**City of Vicksburg, Mississippi**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>	<u>Target Allocation</u>
Domestic Equity	4.60%	27%
International Equity	4.50%	22%
Global Equity	4.80%	12%
Fixed Income	0.25%	20%
Real Estate	3.75%	10%
Private Equity	6.00%	8%
Cash	(1.00)%	1%
		<hr style="width: 100%; border: 0.5px solid black;"/> 100%

*Discount Rate.* The discount rate used to measure the total pension liability was 7.55 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current contribution rate (17.40%). Based on those assumptions, each plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the Proportionate Share of Net Pension Liability (Asset) to changes in the Discount Rate.* The sensitivity of the NPL to changes in the discount rate must be disclosed. The following presents the NPL of PERS, calculated using the discount rate of 7.55 percent, as well as what PERS’s NPL would be if it were calculated using a discount rate that is 1-percentage-point lower (6.55 percent) or 1-percentage-point higher (8.55 percent) than the current rate:

**Mississippi Retirement System (PERS) Fire and Police**

**General Information about the Pension Plan**

*Plan Description.* The Municipal Retirement Systems and Fire and Police Disability and Relief Fund (MRS or the Plan) is an agent multiple-employer defined benefit pension plan comprised of municipal employee plans from around the State of Mississippi for municipal employees, firefighters, and police officers serving in the participating municipalities. The Public Employees' Retirement System of Mississippi (PERS), in coordination with the governing authorities of the respective municipalities, has administered these plans since July 1, 1987.

Membership in the two general municipal employee plans and the 17 fire and police disability and relief systems under MRS was granted to all municipal employees, fire fighters, and police officers who were not already members of PERS and who were hired prior to July 1, 1976. Two fire and police plans elected to extend the eligibility period for membership to July 1, 1987. All MRS plans were closed to new members by July 1, 1987. Eligible employees hired after July 1, 1987, automatically become members of PERS. Members covered by MRS are required to contribute varying amounts of their salary, depending on the actuarial soundness of their respective plans. Each employer contributes the remaining amounts necessary to finance participation of its own employees in MRS.

Plan provisions are established by Mississippi Code Ann. Section 21-29-1 et seq., Articles 1, 3, 5, and 7, (1972, as amended), and annual local and private legislation. Statutes may be amended only by the Mississippi Legislature.

The Plan is included in the PERS Comprehensive Annual Report (CAFR) as part of the Pension Trust Funds. The systems most recent CAFR for the year ended June 30, 2021 should be read in conjunction with these financial statements.

**Administration of the Plan**

The Plan is administered as an agent multiple-employer defined benefit pension plan by PERS, in coordination with the governing authorities of the respective municipalities. *Description of the Benefits Terms.* Regardless of age, participating employees who retire with at least 20 years of membership service are entitled to an annual retirement allowance payable monthly for life in an amount equal to 50.0% of their average monthly compensation and to an additional 1.7 % for each year of creditable service beyond 20 years, not to exceed 66.67% of average monthly compensation, except as may otherwise be provided through local and private legislation. Average monthly compensation for the MRS plans is the monthly average for the last six months of service. Certain participating employers provide a minimum monthly retirement allowance. Benefits vest upon reaching 20 years of membership service. MRS plans also provide certain death and disability benefits. Members who terminate employment from all covered employers and are not eligible to receive monthly retirement benefits may request a full refund of employee contributions. Members covered by MRS do not receive interest on their accumulated contributions. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions.

*Cost-of-Living.*

The retirees and beneficiaries of MRS plans with provisions for a Cost-of-Living Adjustment (COLA) who are receiving a retirement allowance on July 1 of each fiscal year may be entitled to a COLA. This payment is equal to the annual percentage change of the Consumer Price Index (CPI) but not to exceed 2.5 percent of the annual retirement allowance for each full fiscal year of retirement. Certain MRS plans may adopt a COLA other than the one linked to the change in the CPI. These additional payments will be made only when funded by the employers. For the year ended June 30, 2021, the total COLAs for MRS plans were \$ 5,348,000.

*Contributions Requirements.*

Each plan has an established employee contribution rate. Employer contributions in each municipality are paid through an annual millage rate on the assessed property values in that municipality. These millage rates are determined through reviews of each plan's benefit structure during the MRS annual actuarial valuation and certifications by the actuary as to the funding level required of each participating municipality.

Service credit is awarded for employment in a covered position based on the number of months a member works during a fiscal year. All wages and contributions must be properly reported before service credit can be awarded.

Contributions to the pension plan from the City for the years ended September 30, 2021, 2020 and 2019 were \$ 754,355, \$1,365,617 and \$ 294,277, respectively. The contributions for each year met the required contributions.

Inflation	2.75 Percent
Salary Increases	3.00-4.50 Percent, including Inflation
Investment Rate of Return	6.25 percent, Net of Pension Plan Investment Expenses, including Inflation

*Investment Income*

Investment Income is recognized when earned and includes an estimate for the fair value of investments. Net investment income credited to each employer is allocated to each employer based on the employer's balance of Fiduciary Net Position. Please refer to the Plan's financial statements as of and for the year ended June 30, 2021, for further information pertaining to the methods used to estimate the fair value of the Plan's Investments.

*Sensitivity of the Proportionate Share of Net Pension Liability (Asset) to changes in the Discount Rate.* The sensitivity of the NPL to changes in the discount rate must be disclosed. The following presents the NPL of the city, calculated using the discount rate of 7.55 percent, as well as what the city's NPL would be if it were calculated using a discount rate that is 1-percentage-point lower (6.55 percent) or 1-percentage-point higher (8.55 percent) than the current rate:

	<u>1% Decrease (6.55)%</u>	<u>Current Discount Rate (7.55)%</u>	<u>1% Increase (8.55)%</u>

**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

**NOTE 11. CONTINGENCIES AND COMMITMENTS**

Litigation

The City is a defendant in a number of lawsuits, most of which involve small claims and for which the City feels they are adequately covered by insurance. The City, after consultation with legal counsel, does not believe that the ultimate disposition of the above legal proceedings will have a material adverse effect on the financial position of the City.

Grants

In the normal course of operations, the City received federal and state grants for specific purposes that are subject to review and additional audits by federal and state agencies. Such audits could result in a request for reimbursement by federal or state agencies for expenditures disallowed under the terms and conditions of the grants. In the opinion of City management, such disallowances, if any, will be immaterial.

Commitments

The City has entered into a long-term contract with a management company for the convention center. The contract is through September 30, 2021, for a monthly management fee of \$10,404.00 per month.

**NOTE 12. UNEARNED INCOME**

Income represents property taxes assessed as of September 30, 2021 but due in fiscal year 2020.

**NOTE 13. RISK MANAGEMENT**

The City is exposed to various risks of loss related to torts, thefts of, damage to and destruction of assets; errors and omissions, injuries to employees (workers' compensation), employees' health, and natural disasters. The exposure is covered by the purchase of commercial insurance. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded coverage for the current year or the three prior years.

**City of Vicksburg, Mississippi**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

**NOTE 14. PRIOR PERIOD ADJUSTMENT**

The City has a prior period adjustment of \$ 4,416,188 resulting from pension adjustments in records and accounts.

**NOTE 15. EFFECTS OF DEFERRED AMOUNTS ON NET POSITION**

The unrestricted net position amount of \$ 5,993,973 includes the effect of deferring the recognition of expense resulting from a deferred outflow from pensions. The \$ 5,993,973 balance of the deferred outflow of resources at September 30, 2021 will be recognized as an expense and will decrease the unrestricted net position over the next 3 years.

The unrestricted net position amount of \$ 11,733,518 includes the effect of deferring the recognition of revenues resulting from a deferred inflow from pensions. The \$11,733,518 balance of deferred inflow of resources at September 30, 2021 will be recognized as a revenue and will increase the unrestricted net includes the effect of deferring the recognition of revenue and will increase the unrestricted net position over the next 4 years.

**NOTE 16. LITIGATION**

The City is subject to various legal proceedings in various stages of litigation, the outcome of which is not determinable at that time. Management of the City and its Legal counsel do not anticipate that there will be a material effect on the financial statements as a result of the cases presently in progress.

**NOTE 17. TAX ABATEMENTS**

For the year beginning October 1, 2016, the Governmental Accounting Standards (GASB) implemented Statement 77, *Tax Abatement Disclosures*. This statement requires governmental entities to disclose the reduction in tax revenues resulting from an agreement between one or more governments and individuals or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments and the citizen of those governments.

The City of Vicksburg adopted the Tax Abatement Program for Central Business District and Historic District Board on August 21, 2017 as set forth in Sections 22-43 to Section 22-52 of the Code of Ordinances of the City of Vicksburg, MS for Abatement of the increases in ad Valorem taxes on an individual basis. All abatements are for seven (7) years and are for economic development purposes. The City has fourteen (14) tax abatement agreements with nine (9) entities as of September 30, 2021, effective as of August 21, 2017 for fiscal years beginning in 2018 through 2028.

**City of Vicksburg, Mississippi**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

NOTE 17. TAX ABATEMENTS – continued

Three abatements were effective for FY2020 as follows:

Category	% of Taxes Abated	Amount of Taxes Abated
Hotel, Apartments and Restaurants	3.588%	\$ 1,036,935

These three companies were not required to comply with any special provisions in order to receive the abatements and the City made no commitments as part of the agreements other than to reduce taxes.

**NOTE 18. SUBSEQUENT EVENTS**

Events that occur after the Statement of Net Position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the Statement of Net Position date require disclosure in the accompanying notes. Management has evaluated the activity of the City through December 16, 2022, (the date of the financial statements was available to be issued) and determined that the following subsequent events have occurred requiring disclosure in the notes to the financial statements.

- In regard to Environmental Protection Agency (EPA) and the City of Vicksburg’s Water and Sanitary system, the City of Vicksburg entered into an Administrative Order on Consent (AOC) (injunction relief) on April 10, 2013 and a Consent Agreement (civil penalty) on May 28, 2013. The City has paid the \$ 17,000.00 fine as required by the Consent Agreement and Compliance with Consent Order will be an on-going expense to the City with required evaluations and approvals by EPA. Compliance with the Consent Order will be an ongoing expense to the City, which estimated to be approximately \$ 3.6 Million per year for through 2025. On December 3, 2014, the City has approved capital improvement plan for the next five (5) years for sewer treatment plant and sewer system for \$ 3.6 Million per year for the next ten (10) years. The Consent Agreement has been satisfied and is no longer in effect as of September 30, 2022.
- There are no Equal Employment Opportunity Commission claims as of September 30, 2021.

NOTE 18. SUBSEQUENT EVENTS - Continued

- On March 11, 2020, the World Health Organization declared the novel strain of coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures and worldwide. The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of businesses and shelter in place orders for all but those deemed essential services. Nevertheless, City had maintained all services from March 9, 2020 through December 16, 2022, (the date of the financial statements was available to be issued). The City's major revenue sources, including businesses that collect sales taxes, has not directly negatively impact the City. However, the resulting impact of this pandemic upon the operations of the City is uncertain currently.

**NOTES TO BUDGET AND ACTUAL (WITH VARIANCES)**  
**YEAR ENDED SEPTMEBER 30, 2021**

**BUDGETS**

General Budget Policies. Preliminary budgets for the ending year are prepared by the City Accountant prior to October 1 of each year. The availability of the proposed budgets for public inspection and the date of the public hearing on the proposed budgets are then advertised in the official journal. In August, the City holds a public hearing on the proposed budgets in order to receive comments from the residents of the City. Changes are made to the proposed budgets based on the public hearing and the desire of the City as a whole.

The budgets are then adopted during the City's regular September meeting, and the adopted budget is then published in the official journal.

The City Accountant presents necessary budget amendments to the Mayor and Alderman during the year when, in his judgment, actual operations are differing materially from those anticipated in the original budget. During a regular meeting, the Mayor and Aldermen review the proposed amendments, make changes, as it deems necessary, and formally adopt the amendments. The adoption of the amendments is included in Mayor and Aldermen minutes published in the official journal.

The City exercised budgetary control at the functional level. Within functions, the City Accountant has the discretion to make changes, as he deems necessary for proper control. Unexpended appropriations lapse at the yearend and must be reappropriated in the next year's budget to be expended. The City does use encumbrance accounting in its accounting system. Formal budgetary integration is employed as a management control devise.

For the year ended SEPTEMBER 30, 2021, GAAP basis budgets were adopted for all the funds.

Encumbrances. Encumbrances accounting is recognized within the accounting record for budgetary control purposes. Authorization for the eventual expenditure will be included in the following year's budget appropriation.

Budget Basis of Accounting. All governmental funds' budgets are prepared on the GAAP basis of accounting, which is different from state law. Budgeted amounts are as originally adopted or as amended by the Board. Legally, the Board must adopt a balanced budget; that is, total budgeted revenues and other financing sources including fund balance must equal or exceed total budgeted expenditures and other financing uses. States statutes require the Board to amend its budgets when expenditures within a department are expected to exceed budgeted expenditures or estimates of revenues are less than anticipate. The City publishes these changes in its official journal.

1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the City under the programs of the federal government for the year ended September 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200. Uniform Administration Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City of Vicksburg, Mississippi.

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the same basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reports as expenditures in prior years.

3. Indirect Cost Rate

The City did not elect to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable Mayor and Board of Aldermen  
City of Vicksburg, Mississippi

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audit contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Vicksburg, Mississippi, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City of Vicksburg, Mississippi's basic financial statements, and have issued my report thereon dated December 16, 2022.

**Internal Control Over Financial Reporting**

In planning and performing my audit of the financial statements, I considered City of Vicksburg, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Vicksburg, Mississippi's internal control. Accordingly, I do not express an opinion on the effectiveness of the City of Vicksburg, Mississippi's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. I did identify certain deficiencies in internal control, described in the accompanying schedule of findings, responses and questioned costs that I consider to be significant deficiencies (2021-001).

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether City's financial statements are free of material misstatement, I performed test of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audits, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance and other matters that are required to be reported under *Government Auditing Standards*.

## **City of Vicksburg's Response to Findings**

The City's response to the findings identified in my audit are described in the accompanying schedule of findings, responses and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, I express no opinion on it.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR  
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER  
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Honorable Mayor and Board of Aldermen  
City of Vicksburg, Mississippi

**Report on Compliance for Each Major Federal Program**

I have audited the City of Vicksburg, Mississippi's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the City's major federal program for the year ended September 30, 2021. City of Vicksburg, Mississippi's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

**Auditor's Responsibility**

My responsibility is to express an opinion on compliance on the City of Vicksburg, Mississippi's major federal program based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination on the City's compliance.

## **Opinion on Its Major Federal Program**

In my opinion, the City of Vicksburg, Mississippi complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended September 30, 2021.

## **Report on Internal Control Over Compliance**

Management of the City of Vicksburg, Mississippi is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the City's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

**INTERNAL CONTROL OVER FINANCIAL REPORTING:**

**2021-001 Cash Receipts System – Fines and Fees – Police Station/Court Services**

*Condition:* Initial cash receipts tickets are accounted for individually in a separate reporting system and not in the City's management and accounting system.

*Criteria:* Internal control requires that initial cash receipt records for fines and fees be annotated into the initial and intermediate journal of the City's accounting and management information system (MUNIS) to safeguard assets and account for all cash receipts, rather than in entry into an incompatible system which does not interface with the current system.

*Effect:* Unable to trace total receipts to individual tickets and account for all cash receipts for the given period.

*Recommendation:* The City should establish a new system that is compatible with the current accounting system to safeguard assets and account for all transactions.

*Response:* The City engaged a CPA to perform a forensic examination of Court Services, bonds, traffic receipts and other receipts of the Police Department and a report was issued on March 16, 2017. Based upon the CPA recommendation, the City is advised to employ an internal auditor for monitor, oversee financial operations and financial reporting. The objective of an internal auditor is to bring a systemic, disciplined approach to evaluate and improve the effectiveness of the system of internal control and governance processes. The City has not employed an internal auditor as of the date of the 2021 audit report.

**REPORT OF INDEPENDENT AUDITOR'S ON COMPLIANCE WITH STATE LAWS AND REGULATIONS**

Honorable Mayor and Board of Aldermen  
City of Vicksburg, Mississippi

I have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Vicksburg, Mississippi as of and for the year ended September 30, 2021, which collectively comprise the City of Vicksburg, Mississippi's basic financial statements and have issued my report thereon dated December 16, 2022. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*.

As required by the state legal compliance audit prescribed by the Office of the State Auditor, I have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of my audit and, accordingly, I did not express such an opinion.

The results of those procedures and my audit of the financial statements disclosed the following material instance of noncompliance with state laws and regulations. My findings and recommendations are as follows:

**Investments:** - The perpetual care trust fund, which is managed by the trust department of two local banks, had investments other than ones approved by state statute. State of Mississippi statute dictates the types of investments allowed for excess operating funds and requires an investment policy approved by the Board of the City commensurate with the State rules and regulations.

**Response:** - The City's legal department will review state statute and recommend to the City's board its compliance or noncompliance.

The instances of noncompliance of the prior year have been corrected by management unless it is specifically stated otherwise in the findings and recommendations noted above. The Office of the State Auditor or a public accounting firm will review, on a subsequent year's audit engagement, the findings in this report to ensure that corrective action has been taken. This report is intended for the information of the City of Vicksburg, Mississippi's management and the Office of the State Auditor and is not intended to be and should not be used by anyone other than those specified parties. However, this report is a matter of public record and its distribution is not limited.
